

# DYFFRYN TAF

## PRESS RELEASE

### A-LEVEL RESULTS 2015

**These results sustain the high standards achieved by the School.**

The School wishes to congratulate students on the success achieved at A-Level and associated vocational courses during the current academic year. These students have shown both dedication and perseverance in their studies throughout their time at Dyffryn Taf and deserve the accolade associated with such success. The performance reflects the efforts and effective partnership that exists between individual students, their parents and the teachers at Dyffryn Taf.

The School endeavours to produce well-rounded individuals who have a diversity of skills to meet the various demands of higher education and employment. It is hoped that the School's community programme, the post-16 work experience, and cultural and competitive opportunities, will further enhance the potential of these students and complement the excellent results achieved. This has been enhanced with the introduction of the Welsh Baccalaureate and a blend of vocational subjects. On behalf of the students and Governors of the School, I wish to thank all the staff for their dedication and for providing the quality and diversity of educational experiences for all at the School.

We wish all the A-level students every success in the future.

% gaining 2 A\* – E grades (PASS)                      93%

% gaining at least 2A\* – C grades                      87%

The School also notes with some pride the exceptional individual achievements of some pupils:
